

BACHELOR OF
HEALTH SCIENCE
(MIDWIFERY)

Expressions of interest are invited from Registered General Nurses who wish to undertake a two year undergraduate Midwifery programme via satellite link with AUT.

The programme will be 2.5 years from 2010.

All clinical practice and theoretical component in undertaken in Taranaki under the guidance and support of a link lecturer from AUT.

Course begins February 2009

Interviews to be held 14th/15th October 2008 in Taranaki.

The native flower Clematis Paniculata has been chosen as the symbolic representation of the Midwifery Programme. It is a plant with its own unique identity.

It is a flower of this land with Maori name Puawhanga. It is a white flower, which traditionally has connotations of something to be held in esteem. It has both male and female flowers, representing the essence of childbirth.
